

STOP INDIA FROM EXPORTING VIOLENCE TO NORTH AMERICA

Stand with Canada: Pass S. 831 to Protect Americans From Foreign Attacks

Indian Prime Minister Modi, who is responsible for killing over 2,000 Muslims in India, has now extended his fascism to North America. Following several assassinations targeting Canadian Sikhs, Trudeau, the Prime Minister of Canada, informed Parliament that they have credible evidence that India is behind the latest assassination. Canada expelled Indian RAW diplomats and suspended trade negotiations. The danger is so real that the FBI has warned several Americans that they are at risk of assassinations. A suspected Indian government report has already targeted American Muslims, Christians, Hindus, and Dalits who dare to point out to Indian violations of human rights, including the leadership of Justice For All.

However, the US government, seemingly in love with India, is only giving lip service to Canada. Please ask your elected leaders to stand with Canada. If Canada's stance against India succeeds, there is a chance that other countries will take a stand. However, if Canada fails, then no one will be able to stop the Indian Nazis from increasing their persecution of Indian Muslims and exporting violence to North America. Violent RSS already has 60+ training centers in the USA.

OUR ASK:

1. Ask the National Security Council to fully and openly support our neighbor Canada in its effort to stop Indian violence on its soil.
2. Ask the FBI to conduct a full investigation into American groups that claim alignment with India's extremist groups such as the RSS, VHP, and Bajrang Dal.
3. Support Senator Merkley's Transnational Repression Policy Act, S 831, which ensures the safety of the US citizens from foreign governments and its agents.

BACKGROUND:

The Nazification of India is complete. Everyday hundreds of Muslims, Dalits, and Christians are attacked, lynched, and looted across India. In the first week of August 1,200 Muslim houses were bulldozed next to Delhi. In May, 249 Churches were destroyed within 36 hours. 10,000 Muslim girls are missing from Kashmir, a region where 900,000 Indian military personnel are based. That is one armed soldier for every ten Kashmiri homes. The Hindu Parliament has announced a reward if Hindu suicide bombers kill 2 million Muslims. This is pressuring Indian Muslims to convert to Hinduism, live like Dalits, or leave the country.

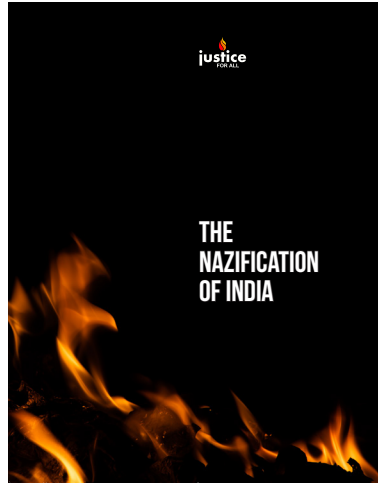

Just like German Nazis who first suppressed minorities and then went after other countries, Indian Nazis have been accused of interference in the neighboring countries. Now they are assassinating their critics in North America.

This Justice For All report was issued in 2023 at the US Congress as well as in the Turkish language in Istanbul.

The RSS has very close parallels to Hitler's Nazi Party. This is not a coincidence. Early leaders of the RSS praised Hitler's methods to attain racial purity and recommended it as a model for India to use against its Muslim & Christian populations.

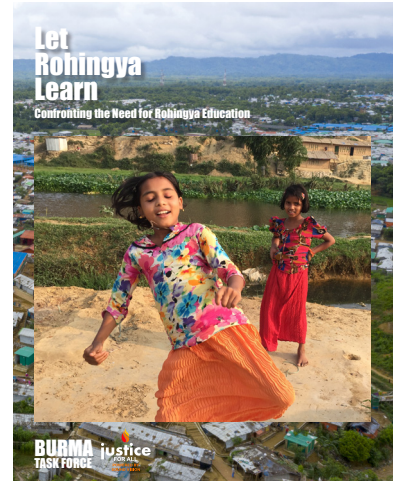

This report developed by Justice For All in collaboration with the University of Toronto was released in the US Senate in 2023. It focuses on how Google hides the existence of Uyghur slave labor in its supply chain. The supply chain of many household technology companies has recently been linked to the human rights abuses against the Uyghur population in East Turkistan.

1,046 Uyghur imams and other religious figures from East Turkistan have been detained. This report on the topic was released in 2021. It is translated in Arabic, Chinese, Indonesian, and Turkish language.

The Uyghur Human Rights Project (UHRP), in partnership with Justice for All, released this report to detail the mass detention of Uyghur and other Turkic Muslim imams in East Turkistan by China.

On the occasion of World Refugee Day, 2021, Burma Task Force, a program of the human rights advocacy NGO Justice for All, published its new report "Let Them Learn: Confronting the Need for Rohingya Education."

Now in Bangladesh, as refugees, Rohingyas are not allowed school beyond the third grade. This will be the 3rd generation of Rohingyas without education.
