IMPACT REPORT

**CHALLENGING
GENOCIDE
& GLOBAL
ISLAMOPHOBIA**

FOUNDER & PRESIDENT ABDUL MALIK MUJAHID

Bismillah

According to the UN, 'discrimination and hatred' against Muslims has risen to 'epidemic proportions' globally. The global cry for Justice grows louder. The Ummah is struggling for Freedom, Equality and Islam. With this reality, we carry forward this critical work, your critical work.

As genocide is normalized, the fight for fundamental equality, safety and human rights for minorities facing extreme Islamophobia is more crucial than ever.

Thank you for helping us protect and promote these rights. With your support, we strive to contribute to creating a just and equitable world. I'm happy to present our impact report highlighting the landscape we work in, including key issues, challenges, and successes in the field of anti-genocide advocacy.

Justice For All is dedicated to advancing global human rights and social justice through education, advocacy, and grassroots organizing. In 2023, we successfully expanded our advocacy to Muslim

majority countries and launched Palestine Media Watch, the front lines while engaging communities and individuals fighting for Muslims in East Turkestan, India, and beyond.

This year was a big year for our research department. We hired a full-time human rights policy analyst and reorganized our teams.

I've witnessed the impact that atrocities can have on the most vulnerable. But at the same time, I can attest to the effectiveness that advocacy and grassroots organizing can have on influencing policy and bringing about positive change.

I hope this report will serve as a valuable resource to inspire action, support and protect the rights of all marginalized peoples.

Your brother,
Abdul Malik Mujahid
Founder & President

A LOOK BACK BY THE NUMBERS

\$1,400,000,000

Since enforcement of the Uyghur Forced Labor Prevention Act, which Justice For All advocated for, US Customs has detained over **4000** shipments, at an overall value of almost **\$1.4 billion dollars**.

Justice For All defeated lobbying by Apple, CocaCola and Nike to achieve this.

1

S.Res.424 introduced by Senator Tammy Baldwin asks the United States Government to engage the Government of India to seek a swift end to the persecution of, and violence against, religious minorities and human rights defenders in India.

16,053

Following the commencement of the Gaza carpet bombing, Justice For All recognized the urgent need to correct the media narrative. Several unchecked stories were going viral, reminiscent of the pre-Iraq War environment where a biased narrative supported the war. In response, the Justice For All team initiated a project to counter misinformation, leading

to the creation of the Palestine Media Guide, which is updated on a daily basis. As of December 30, 2023, we have had over 16 thousand engagements with the media.

As of Oct 30, 2023, the Justice For All Palestine Media Watch team has been actively involved in a comprehensive media monitoring campaign with the primary goal of changing the public narrative to ensure fair, balanced, and accurate information regarding the Gaza-Palestine crisis.

The campaign involves volunteers who are strategically assigned to different media outlets, manually scanning articles and providing feedback to journalists; staff who maintain a database of responses and curate the Palestine Media Guide which shapes responses.

3

Using the Global Magnitsky Act Justice For All filed the case of three Indian extremists who are involved in the 2020 pogrom of Muslims in Delhi, India to the Canadian government.

- Participated in BBC Documentary Tour of College Campuses

Despite achieving these significant milestones. Our activism must continue for over 32,000 Palestinians brutally killed by the Israeli regime. So much more must be accomplished with your support.

Your financial support helps us take our human rights and advocacy work to the next level and push our government and nations of the world to implement real action.

DONATE TO BUILD ON YOUR SUCCESS

Every progress and positive development is a step in the right direction and a marker of the incredible and invaluable support YOU give us. REMEMBER:

Every time **YOU** click an action alert

Every dollar **YOU** spend in the cause of Justice

Every post **YOU** share from our social media

has an impact. **Don't forget that**

Testimonials

"I believe in the work you do. We have joined forces to work together on behalf of the people of Sri Lanka and Kashmir and other... ethnic and persecuted minorities. It takes hard work and patience and persistence and commitment. I am humbled as I see you and your colleagues in the human rights communities,

because I see you advocating, organizing and I have seen you do this every day for years. I honor you- my contributions are only effective because of your work and the frontline organizations you partner with. We warned about the risk of genocide against the Rohingya back in 2015; in 2017 we detailed the many ways Chinese authorities were expanding control over the Uyghur population. Thank you for your work for persecuted people around the world. I and people all across America are grateful for the work that you do" Congressman Jim McGovern, Chair Tom Lantos Human Rights Commission, Recipient of Torch of Justice For All.

"I volunteer for JFA to advocate for victims of human rights injustices regardless of race, nationality, or religion. We engage lawmakers locally and in Washington DC, advocating for policies supporting life, liberty, justice, and equality. JFA has driven policy change on atrocities like Bosnia, Kashmir, Rohingya, and Uighur, labeling them as human rights violations. I choose JFA for its inclusivity, human rights advocacy, awareness promotion, and political dialogue, enabling me to make a real impact." - Asima Silva, Volunteer
