### PRESIDENT TRUMP: "MY PEOPLE ARE STARTING TO HATE ISRAEL"

According to the Financial Times, Trump told a Jewish donor that, "My people are starting to hate Israel." Until recently, the MAGA world was solidly on the side of Israel. But the news of starvation in Gaza has created a rift. One of Trump's most loyal supporters, Rep. Marjorie Greene, last week, went so far as to call Israel's actions a, quote, "genocide." Steve Bannon warns Trump that he risks losing support of young Republicans.

## STARVATION STRATEGY: HOW ISRAEL CREATED FAMINE IN GAZA

A new investigation by research group Forensic Architecture (FA) has found that the Israeli military has pursued a deliberate strategy of starvation that has pushed Gaza towards famine.

The report details how Israel has weaponised aid, forcing Palestinians to travel long distances to reach military-run distribution centres in the south of the Strip, while opening fire on those same civilians as they seek aid.

Between March 18 and August 1, 2025, each incident was geolocated and verified using video and satellite imagery, creating a detailed picture of how aid is being manipulated to kill, rather than save, Palestinians.

## THE UN HAS ENOUGH FOOD TO FEED ALL GAZA FOR 3 MONTHS

The UN says it has enough food just miles from Gaza's border to feed 2 million Palestinians for 3 months. Over 6,000 trucks are loaded and ready to enter. But Israel continues to block the delivery of food and water. Muslim Americans have donated millions to support their brothers and sisters in Gaza — yet that aid remains undelivered. This is not a shortage. This is a blockade.
